MESSAGE FROM THE DIRECTOR

Please accept with my compliments a copy of the 1977 *Directory To Montana Agricultural Products.*

Agriculture is Montana's largest and fastest growing industry. We are among th leading states in the production of many of America's basic food stuffs. Our larg herds of cattle and sheep are the source of choice, processed carcasses and suppl the nation's finest selection of purebred breeding stock. Montana is assuming a increasingly important role in supplying domestic and international markets wit basic agricultural products to satisfy food demands.

Montana's growing honey industry exemplifies our broad agricultural base accounting for nearly ten million pounds of premium, quality white clover hone being produced annually.

We also produce significant quantities of alfalfa, potato and grain seeds, fres cherries, dairy and poultry products, sugar, dry beans, flax seed, and numerou other commodities.

Montana produced a record 167,300,000 bushels of wheat in 1976. The tot wheat production consists of 98,560,000 bushels of winter wheat, 60,180,000 sprin wheat and 8,555,000 durum. Barley production reached 52,065,000 bushels. The oa crop produced 10,810,000 bushels, and our flax seed production was 120,000 bushel In addition, Montana produced 2,200,000 pounds of alfalfa seed, 1,806,000 c.w.t. o potatoes, 144,000 c.w.t. of dry beans and 986,000 tons of sugar beets.

Montana stockmen had 2,980,000 cattle and calves on hand January 1, 197 There were 620,000 sheep and lambs on Montana ranches and farms as well as hog and pigs estimating 181,000 head at the end of 1976. In number of livestock among a the states, Montana ranks 14th in all cattle and calves, 8th in beef cows, 6th in shee and 29th in hogs.
